

Creation of Labcorp Patient Account

1. Go to labcorp.com.
2. Select the "Individual & Patients" option on the far left of the screen.
3. Select "Log In" at the lower left option list on the screen
4. Select "Create an Account" option
5. Fill out the form fields completely and then select "Create an Account"
6. You are done. Save the email address and password you used somewhere safe.
You will need the email / password information to sign in for reviewing lab test results in the future.

How to Locate a Labcorp Location for Obtaining Lab Samples Near You

1. Go to labcorp.com.
2. Select the "Individual & Patients" option on the far left of the screen.
3. Select "Appointments & Locations" option.
4. Under "Find a Lab Near You" enter your location information.
5. Choose "Routine LabWork" for adults, and choose Pediatric Collection for smaller children.
6. You can choose to book at home (they come to your house) for an extra fee (\$35), or you can from the listed locations nearest to you.
7. Make sure to check the "Services" drop down menu - not all locations do all things
8. Make sure to check the "Hours" drop down menu - they have schedule lunch breaks every day
9. Making an appointment is not required. Since your labs are already paid for there is no need to enter payment information that is required during the making appointments process if you do.
10. Make sure you have the lab order that you received from MESH (orders are already in the system, but it never hurts to be prepared).
11. Also make sure you have a photo ID like a driver's license with you - they need to verify you are you.
